Operation Zugzwang — Master Asset List

Every asset on both sides, hidden ones included

Core function (AFDP 3-0, REDFOR Air Force assets): AS, GPA, RGM, GISR, C2. **Joint** = Army, Navy, or Marine Corps.

Totals: REDFOR 22 counters (15 in theater, 7 at home, 3 hidden) · BLUEFOR 21 counters (5 hidden).

1. REDFOR: Cosmopolis National Defense Forces (CNDF)

1.1 In theater

ID	Asset · core function · zone	What it does	Limitation (BLUEFOR's Con)
R-01	F-35A Lightning II squadron (~12) · AS, GPA · Z6	Stealth multirole. Penetrates air defenses, precision strike, sensor fusion.	Limited internal load. Needs tankers at 250 mi. High maintenance.
R-02	F-22A Raptor squadron (~12) · AS · Z6	Premier air-superiority fighter	Small air-to-ground load. Each loss hurts.
R-03	F-15E Strike Eagle squadron (~12) · GPA, AS · Z6	Heavy payload, long-range strike, air-to-air capable	Not stealthy. Vulnerable to intact Patriot and short-range SAMs.
R-04	A-10C Thunderbolt II squadron (~12) · GPA · Z6	Close air support. Very effective against small boats.	Slow and low. Vulnerable to SAMs and fighters.
R-05	KC-46A Pegasus tankers · RGM · Z6	Air refueling for every other aircraft	Unarmed, high-value. Losing it grounds the strike plan.
R-06	E-3G Sentry (AWACS) · C2, GISR · Z6	Airborne radar picture and battle management	High-value. Must stay back from threats.
R-07	RC-135V/W Rivet Joint · GISR · Z6	Signals intelligence: locates radars and comms	Must stand off. High-value.
R-08	RQ-4B Global Hawk · GISR · Z6	High-altitude wide-area imagery	Unarmed. Patriot can kill it. Weather limits imagery.
R-09	MQ-9A Reaper detachment · GISR, GPA · Z6	Long-endurance ISR, light strike	Slow. Easily shot down.
R-10	EC-37B Compass Call · EMS · Z6	Jams communications and radar networks	Temporary and local. Must stay in range.

R-11	C-130J Super Hercules detachment · RGM · Z6	Intra-theater airlift, rough fields (ACE enabler)	Vulnerable near defended areas
R-12	HH-60W + HC-130J rescue package · Z6	Combat search and rescue	Needs escort and air superiority
R-13	Patriot battery · Joint (Army) · Z6	Defends Camas against aircraft and missiles	Limited interceptors. One area.
R-14	P-8A Poseidon · Joint (Navy) · Z6	Maritime surveillance, tracks boats and minelayers, anti-ship strike	Vulnerable to SAMs near Omak's coast
R-15	Destroyer SAG, 2–3 Arleigh Burke · Joint (Navy) · Z9	Air defense at sea, escort, Tomahawk land attack	Vulnerable in the Narrows to mines, boats, coastal missiles

1.2 At home (Z1)

ID	Asset · core function	What it does	Limitation (BLUEFOR's Con)
R-16	B-52H Stratofortress (JASSM-ER, LRASM) · GPA	Standoff missiles from outside SAM range	Whole-turn sortie from home. Not stealthy.
R-17	B-1B Lancer (JASSM-ER, LRASM) · GPA	Fast heavy bomber, large standoff load, good against shipping	Whole-turn sortie from home. Not stealthy.
R-18	**B-2A Spirit · GPA**	**Stealth penetrating bomber, global reach from home**	**Very few airframes. Each loss is a strategic and political shock.**
R-19	C-17A Globemaster III · RGM	Strategic airlift from home	Needs secure airfields at both ends
R-20	Space Force: GPS, SATCOM, SBIRS	Navigation, long-haul comms, missile warning (cues R-13)	Jammable. Asotin has counterspace capability.
R-21	**Cyber mission teams**	**Intrusion and disruption of C2, air defense networks, propaganda outlets**	**Uncertain, slow (big project). Escalation and attribution risk.**
R-22	**AFSOC MC-130J + Special Tactics team**	**Covert insertion, terminal attack control, airfield seizure or survey, personnel recovery**	**Small. −1 inside Omak (S-B5). Capture is a political disaster.**

1.3 RFF pool

ID	Asset	Arrives	Approval (Handbook §7)
R-30	Additional F-35A squadron	N+1	Basing room
R-31	Additional KC-46A	N+1	Routine
R-32	ACE package (RED HORSE, base kits)	N+1	A host location
R-33	Sustainment package (lifts S-R1)	N+1	Routine
R-34	Mine countermeasures group (Navy)	N+2	Routine
R-35	Additional Patriot or THAAD (Army)	N+2	Routine
R-36	Carrier strike group (Navy)	N+2	Domestic Will ≥ 3
R-37	Airborne infantry brigade (Army)	N+2	Domestic Will ≥ 4, or a prior successful COA
R-38	ARG/MEU (Marines)	N+3	Same as R-37
R-39	Authorities	N+0	Political

2. BLUEFOR: Omak (NDF and PFA)

2.1 In place at start

ID	Asset · owner · zone	What it does	Limitation (REDFOR's Con)
B-01	F-16C/D squadron 1 (~12) · NDF · Z11	Multirole air defense and strike. Can lay Quickstrike mines (B-11).	Outclassed by F-22, F-35, and AWACS-supported forces. One main base.
B-02	F-16C/D squadron 2 (~12) · NDF · Z11	Same as B-01	Same
B-03	F-15C Eagle squadron (~12, older) · NDF · Z12	Air-superiority interceptor	Aging. Spare parts cut off.
B-04	Patriot PAT-1 (PAC-2) · NDF · Z10	Denies the air over the Strait to non-stealthy aircraft. Engages missiles.	Slow to relocate. Radar emits, which the RC-135 can find.
B-05	Patriot PAT-2 (PAC-2) · NDF · Z11	Protects Omak City (the capital) and main air base	Same as B-04
B-06	**NASAMS ×3 + Stinger teams · NDF · BLUEFOR's choice**	**Pop-up ambush of low or slow aircraft (A-10, MQ-9, C-130J, helicopters)**	**Short to medium range**
B-07	AN/FPS-117 early-warning radar network · NDF · Z10–Z12	Detection and cueing for Patriot and fighters	Fixed. Jammable. Strikable.
B-08	Harpoon CB-1 (~75 mi) · NDF · Z10 west Narrows	Holds shipping and warships at risk	Needs targeting data
B-09	**Harpoon CB-2 · NDF · Z10 east Narrows**	**Same as B-08**	**Needs targeting data**
B-10	**HIMARS + PrSM (~500 km), Asotin-supplied (Army) · NDF · Z12**	**Can reach Camas. Strikes bases, ports, ships at anchor. Shoot-and-scoot.**	**2–3 salvos per game. SBIRS sees launches. Camas Patriot can intercept.**

B-11	**Quickstrike mine stockpile · NDF · Z10**	**Mines the Narrows, by F-16 or by boat**	**Clearable, given time. Mining costs Opinion.**
B-12	Mark VI patrol boats (~8) · NDF · Z10/Z8	Patrol, escort, interception, minelaying	Very vulnerable to A-10, P-8, helicopters once found
B-13	1st Armored Bde (M1A1, M2) · NDF · Z11	Defends Omak City (the capital)	Vulnerable to air attack in the open
B-14	2nd Armored Bde (M1A1, M2) · NDF · Z10	Defends the coast and Fortune Harbor	Same
B-15	Coastal Defense Bde (M777, Javelin) · NDF · Z10	Anti-landing defense	Static
B-16	MQ-9A (~6) + Switchblade 600 · NDF + PFA · Z12	Targeting ISR (cues B-08 and B-10). Cheap precision strikes.	Easily shot down
B-17	C-130H airlift · NDF · Z11	Moves troops and supplies inside Omak. Receives Asotin airlift.	Vulnerable under REDFOR air superiority
B-18	PFA maritime militia (~40 boats) · PFA · Z10/Z8	Harassment, minelaying, swarming, scouting. Blends in with civilians.	Light, untrained. Civilian-harm cost.
B-19	PFA militia brigades ×3 (~15,000) · PFA · Z10–Z12	Urban and rural defense. Ground incursions very costly. Internal security.	Poor discipline. Abuses cause backlash.
B-20	PFA Information Directorate · PFA · Z11	Propaganda exploiting the meddling scandal	Credibility drops if caught lying
B-21	**PFA hacktivist cyber cell · PFA · no zone**	**Nuisance attacks, leaks, disruption of Camas and Cosmopolis civilian networks**	**Low sophistication. Attribution invites escalation.**

S-B1 check: any COA that uses an NDF asset together with a PFA asset takes −1. B-16 belongs to both, so agree as a white cell before the game whether a COA using it counts as joint.

2.2 RFF pools

ID	Asset	Arrives	Approval (Handbook §7)
B-30	NDF reserves: 2 infantry brigades	N+1	Routine. Repeating it may cost Stability −1.
B-31	PFA volunteer surge (+1 brigade)	N+1	Routine. May worsen S-B1 friction.
B-32	Requisitioned civilian shipping	N+1	Routine
B-40	Asotin arms shipment	N+2	Routine
B-41	Asotin intel sharing	N+1	Routine
B-42	Asotin PAC-3 battery, "volunteer" crews	N+3	Opinion ≤ −1, or REDFOR struck an Asotin shipment
B-43	Asotin "volunteer" F-16 Block 70 squadron	N+3	Opinion ≤ −2
